

India-UK : Partners in Manufacturing and Engineering – Virtual Trade Mission 2022

Department for International Trade (DIT) is hosting a virtual engineering and manufacturing mission to India in September 2022. This will be our second virtual mission to India, building on the successful engagement last year.

We invite innovative UK companies in diverse manufacturing technologies to join our mission and use this excellent opportunity to promote and pitch about your innovative technology and engage in B2B meetings directly with Indian companies to explore new business opportunities.

Why participate:

- Hear from industry experts from UK and India, in areas of **Sustainable Manufacturing, Advanced Materials and Smart Manufacturing**.
- Register for the B2B session if you are an Indian / UK company looking for strategic partnership and business opportunities.
- Schedule meetings directly with our DIT sector team on the B2Match platform to discuss how DIT can support your current business and future plans in India.

B2B session criteria for companies:

- UK companies manufacturing high precision-engineered products or having a commercialised technology
- UK companies interested to export to India
- Companies already doing business with India / UK
- Indian companies interested to buy from the UK / seeking technology partnerships with the UK

Profiles of companies encouraged to participate:

- Electrical, Mechanical & Process Engineering
- Metals and metals processing (including advanced coating technologies)
- Printing & Packaging
- Advanced Materials (such as Composites, Graphene, Newer Alloys)
- Low-cost automation, Industrial Automation and Robotics - Industry 4.0,
- Metrology (scientific instruments, measuring, sensor and testing equipment)
- Plant and machinery/equipment (for use in food processing, packaging, clean mining, construction etc)
- Design and engineering services
- Environmental and social aspects of manufacturing and clean mining
