

LLOYDS BANK

By the side of business

COMMERCIAL BANKING

Protecting your business from fraud and cyber threats.

2 March 2023

8.00am - 10.30am

Crowne Plaza NEC, Pendigo Way, Birmingham B40 1PS

[Link to venue](#)

Fraud offences have risen by 25% and computer misuse by 89% in the year ending March 2022. These were the findings of an Office for National Statistics survey when comparing with the year to March 2020.

You're invited to our seminar at the Crowne Plaza NEC, where we will share information on the latest fraud threats faced by businesses in the Midlands and what you can do to help keep your business safe. You'll also hear from our guest speaker Detective Inspector Michelle Ohren from the Cyber Resilience Centre for the West Midlands, who will talk about the threat of cybercrime.

The event is free to attend and we hope you and your colleagues can join us.
