**The Department for Business and Trade (DBT) invites UK businesses to participate in a dynamic programme of activities designed to connect you with a visiting delegation of Indian advanced manufacturing and engineering companies at an event near you.**

These events offer a unique platform to build strategic partnerships, explore joint ventures, and position the UK as a key collaborator in India's industrial transformation.

### **Strengthen your Global Reach and Develop Meaningful Connections**

Indian businesses are coming to the UK with a clear goal, to collaborate. This delegation brings expertise in:

- Sustainable and green manufacturing
- Digital transformation and smart industrial technology (Industry 4.0)
- Advanced materials and precision engineering
- Connected supply chains and net-zero technologies

India's manufacturing and engineering sectors are rapidly evolving, and its firms are actively seeking UK partners to help scale-up, innovate and expand internationally. This is your opportunity to tap into one of the world's most promising industrial markets.

This visit is perfectly timed to build on the momentum of the UK-India Free Trade Agreement, strengthening bilateral ties and facilitating collaborative connections to help shape the future of global manufacturing and engineering.

### **About the event**

Join an event near you to engage directly with Indian business leaders through pre-booked one-to-one meetings. You will also:

- Receive a detailed market briefing, offering insights into cultural nuances and the business opportunities that exist.
- Hear from local support organisations and key partners to help with market entry and global expansion.
- Discover the advantages of the UK-India Free Trade Agreement.

### **Why join?**

Join an event near you to engage directly with Indian business leaders through pre-booked one-to-one meetings. You will also:

- Explore your export potential and discover the demand for your products or services in India's expanding industrial ecosystem.
- Develop potential partnerships and technology collaborations on cutting-edge solutions in automation, AI and smart manufacturing.
- Meet decision-makers from Indian firms looking to source from and collaborate with UK businesses.
